

Supply Chain Duty of Care Act (LkSG)

WITA® Wilhelm Taake GmbH recognises its responsibility and duty of care towards the protection of the environment and respect for human rights in all processes which are necessary for the company's business operations with a voluntary declaration of principles in accordance to the requirements of the German Supply Chain Duty of Care Act (LkSG).

Due to the number of employees, we are not legally obliged to issue such a declaration. Rather, the philosophy of WITA® Wilhelm Taake GmbH has always been orientated towards social competence towards our employees, suppliers and customers as well as respect for the environment through responsible use of natural resources right through to the final products in the form of energy-efficient devices.

We would like to manifest this way of thinking and acting through our voluntary declaration on the Supply Chain Duty of Care Act (LkSG).

Any detected or suspected violations or breaches of duty against the LkSG in the business operations of WITA® Wilhelm Taake GmbH or a supplier of the company will be investigated and clarified in our company as soon as they become known.

The notification of such a violation can be done personally or anonymously via our website: <https://www.wita.de/en/contact/>

WITA® - Wilhelm Taake GmbH
- company with respect against people
and environment
